

HUERTA WEAKENING TO WILSON POLICY

MEXICAN CONGRESS WILL MEET
TO FORMULATE PLANS TO
MEET DEMANDS

DELAYS RESIGNATION

Until Satisfactory Official is Named
That is Acceptable to Constitutionalists—Lind Is Safe.

[BY ASSOCIATED PRESS.]
Washington, Nov. 14.—Bryan exchanged messages early today with Charge O'Shaughnessy about the reported concessions which some of Huerta's officials here intimated he would make to the United States. Efforts to recall John Lind from Vera Cruz to Mexico City to discuss the American memorandum demanding the new Mexican congress should not convene were taken here to indicate that the group surrounding Huerta would suggest a compromise arrangement by which the new Mexican congress would meet but not pass upon the concessions of the American measure, calculated to continue Huerta in power.

Much Secrecy.
Officials were silent about the inner negotiations, but were optimistic here in an announcement of Huerta's intention to resign were withheld until satisfactory arrangements could be made for the choice of a provisional successor acceptable to the constitutionalists.

While the United States might refrain from making any suggestions on its own it would endeavor to act as a medium of communication through William Bayard Hale with General Carranza and Charge O'Shaughnessy at Mexico City so that there might be an exchange of views upon various names.

Lind Is Safe.
There was a report early today that Foreign Minister Moseno might be the man selected, though the view of the constitutionalists as to Moseno's acceptability are not known. The report printed this morning on the shooting of John Lind are absolutely untrue. He is still at Vera Cruz.

Constitutionalists Cheerful.
Nogales, Mex., Nov. 14.—An air of cheerful expectation was noticeable today about the headquarters of Constitutional Leader Carranza. Word from Washington was eagerly awaited and Carranza's adherents believed the plans of the American administration when fully revealed, could not fail to be of advantage to the constitutionalist cause.

It was deemed virtually certain that the embargo against the shipment of arms and ammunition across the border would be lifted soon by the United States and Carranza's officers were jubilant at the prospect of a vigorous campaign against the federalists.

American property owners along the border also took great interest in proceedings here.

Culiacan Captured.
Culiacan, capital of Sinaloa, was captured by constitutionalists late yesterday. This was announced today at military headquarters in a telegram from General Obregon, who was commander of the insurgent forces. Details of the fighting are lacking.

Huerta's Enemies.
Tucson, Ariz., Nov. 14.—The constitutionalist army captured Culiacan capital of Sinaloa, at three o'clock this morning. Philip Riveros, governor of Sinaloa, who was deposed by Huerta, was again installed as governor. Mazatlan is now the only city in Sinaloa remaining in the hands of the federalists.

Confidence Expressed.
Mexico City, Nov. 14.—Confidence in the early accomplishment of the aims of the United States towards Mexico was expressed today by Charge O'Shaughnessy.

The overtures made by the Mexican minister of the interior, Manuel Aldape, yesterday, are taken as evidence that Huerta is ready to recede from the stand he has previously taken.

BOY BICYCLE RIDER KILLED BY AUTOMOBILE

Wausau, Nov. 14.—Henry Goertz, thirteen, was struck and killed by an auto yesterday. He was riding his bicycle and collided with the machine driven by Dr. D. T. Jones.

CONSTITUTIONALISTS PLAN TO SEIZE LOWER CALIFORNIA; NAME GOVERNOR.
The latest move of the Constitutionalists in northern Mexico is to take steps toward the complete overthrow of the Huerta government in Lower California. The man whom Carranza is picked to act as governor of Lower California is H. V. Anaya, a trusted lieutenant. The picture shows General Carranza and two of his right-hand men, General Trevino and Gustavo Mireles.

RAILWAY SEEKS TO TAKE OFF A TRAIN

Business Men File Protest Against
the Northwestern Railway
Company.

Madison, Wis., Nov. 14.—Nearly a score of business men protested before the railroad commission yesterday afternoon against the application of the Northwestern road to take off the evening and early morning trains operating between Watertown and Fond du Lac. The hearing on the part of the company was conducted by Attorney C. A. Vilas. The burden of the complaint of the Northwestern line was that, according to the testimony of Superintendent C. H. Vilas, that the train did not make expenses. He said that it necessitated an extra train crew, which absorbed all of the profits and left a monthly deficit. Residents of Juneau, Fond du Lac, Oakfield, Watertown, Clyman and Burnett Junction argued that the train was of the greatest service to the public and should be given a longer trial. C. C. Busch of Fond du Lac, Assemblyman W. H. Soumerai of Oakfield, Frank Clatt, Clyman, D. G. Gile and H. C. Grube, Watertown; L. W. Dohne, Burnett Junction, and James M. Hodgins and E. F. Binte of Juneau, claimed that the train enabled residents on the line to go to Chicago, Milwaukee and Madison and return the same day. They contended that the public was becoming better acquainted with the train and that the deficit would decrease and in time the train would be a paying proposition.

AUTHORITY ON FOOD CAUSES A TURMOIL

Tells Women's Clubs That Their Committee Requested Him to Go Easy on Meat Pickers.

Buffalo, N. Y., Nov. 14.—The annual convention of the New York state federation of women's clubs ended today with the delegates in a turmoil over an address by Alfred W. McCann of New York, a food expert. Speaking of the national indifference which makes possible the sale of "diseased" meats, varnished with cream and other impure food products, Mr. McCann said, that upon his arrival here a committee from the state federation had called upon him and asked him "to go easy" on the meat question, as sums of money to assist the convention arrangements had been given by the local packers. He said that while the committee was just its members were not awake to the seriousness of their suggestions.

W. R. C. CONVENTION AT MILTON JUNCTION

Representatives Present From Lodges
in Several Cities—Next Meeting
at Janesville.

Delegates from Palmyra, Whitewater, Fort Atkinson, Eugenston, Janesville and Milton were in attendance at the district convention of the Women's Relief Corps, held at Milton Junction yesterday at the invitation of the J. E. Oakley Corps, No. 128. The meeting was called to order at ten a. m. Department Inspector Mrs. Grinnell conducted an inspection of the local corps. After dinner, which was served by the ladies of the Methodist church, District President Mrs. Pierce of Milton Junction called the meeting to order. When the regular business had been disposed of a program of music and talks was given by the members of the different corps. The invitation of the W. R. Sargent Corps to hold the next convention in Janesville was accepted about one hundred and fifty were present, thirty a going from Janesville.

PROFIT SHARING ANSWERS TO INDUSTRIAL PROBLEM

[BY ASSOCIATED PRESS.]
Boston, Mass., Nov. 14.—"Profit sharing seems to afford the only way out of an intolerable condition of industrial strife," is the opinion of President Emechus Charles W. Elliott of Harvard University.

"Democracy plus the wage system has produced a state of affairs in this country which is intolerable," said Dr. Elliott in addressing the club of printing house craftsmen today.

WILL PLAN UNITED FIGHT UPON LIQUOR

Object of Convention to Unite All
Forces Working for Temperance
and Prohibition.

[SPECIAL TO THE GAZETTE.]
Columbus, O., Nov. 14.—Following in the wake of the biennial convention of the Anti-Saloon League of America, which closed its four days' session yesterday, another, even larger and more important gathering in the interest of prohibition opened here today. The gathering includes representatives of the Anti-Saloon League, practically all temperance and prohibition organizations of the country, of the various religious and semi-religious organizations and many hundreds of persons not directly connected with any society or other organization engaged in the fight against liquor, but greatly interested in the subject for scientific, sociological, hygienic or other reasons. To bring about an amalgamation of all the temperance and prohibition forces of the country into one organization to plan a united educational and legislative campaign against the liquor evil is the object of the large gathering which will remain in session several days. Many noted advocates of prohibition are among those in attendance and will deliver addresses and take part in the discussion of the plans to be formulated for a concerted campaign against liquor.

TRAIN FIRED UPON BY COPPER MINERS

Enlist Just Misses Party of Ten Men
Mistaken for Strike-breakers—
Forty-nine Go Back
to Work.

[BY ASSOCIATED PRESS.]
Calumet, Mich., Nov. 14.—A passenger train of the Duluth South Shore and Atlantic railroad was fired on today when it reached Hancock where a large number of copper strikers were awaiting the arrival of non-union men. One of the strikers, through a window, missing a party of ten men who had been mistaken for strike-breakers. The shooting created much excitement. Ninety-six additional arrests on the charge of violation of the injunction against picketing were made at the Superior mine. Noisy parades were held at Quincy and South Range where two coachloads of imported men arrived for the copper range mines. The first notable break in the ranks of the Western Federation of Miners at the Clampton mine. Forty-nine Lithuanians returned to work at the Clampton mine.

SAXON KING INJURED IN TRAIN ACCIDENT

Royal Train Jumps Track Near Leipzig,
Germany—Injury Is Only
Slight.

Leipzig, Germany, Nov. 14.—A special train conveying the king of Saxony was wrecked by the derailment of a baggage car a short distance from the city. The king was injured and proceeded on foot to the station where he boarded another train.

DEPOSITORY TANGLE AGAIN BEFORE BOARD

Supervisors Stand Staunch by County
Banks—Chas. E. Moore
Elected Highway Commissioner.

Determined, it is possible, to secure county funds for deposit in the Beloit banks, Supervisor Simon Smith moved for a reconsideration of the county deposit proposition at the session of the board this afternoon. The motion carried and Supervisor Wilford at once renewed his motion making the Beloit banks the county depositories, and Supervisor Richardson advanced the amendment that the sense of the board be that the deposits be prorated among the banks of the county with the rate 2.5 per cent. The amendment and motion as amended carried. Thereupon Supervisor Overton offered the resolution that the bids received on the deposits be rejected and that the county establish a flat rate of 2.5 per cent per annum. Supervisor S. Smith's amendment to have the rate be 3.1 per cent was lost and the original motion carried 25 to 9. This establishes the proposition as proposed with the exception that the various banks asking for deposits will designate the amount they will accept on a schedule being presented to the county clerk by Supervisor Richardson and with it as a basis the pro-rating will probably be made.

Highway matters were also considered by the board this afternoon. Chas. E. Moore was unanimously elected highway commissioner for a three year term beginning Jan. 1, 1914, and he was voted an assistant with a salary of about one hundred and fifty state highway commission addressed the board briefly on changes in the highway law.

TWO MORE STEAMERS KNOWN TO BE LOST

HENRY B. SMITH AND MAJOR OF
CLEVELAND NUMBERED
AMONG WRECKED.

SECOND MYSTERY SHIP

Red Bottomed Boat Reported Seen Off
Harbor Beach—Believed Ill-
fated James S. Carruthers.

[BY ASSOCIATED PRESS.]
Port Huron, Mich., Nov. 14.—Two more vessels are today added to the toll of the storms which have swept the great lakes since Saturday. Reports last night told of the probable sinking of the steamer Henry B. Smith of Cleveland in Lake Superior, and it was learned today that the freighter Major, also of Cleveland, was abandoned last night off Whitefish Point. Her crew of eighteen was rescued by the steamer Byers. Messages received today indicate that Lake Huron holds another overturned mystery ship besides the one near here, a red bottomed steamer having been reported off Harbor Beach. The first report of this vessel came from Duluth last night. Today a message confirming the Duluth report came stating that the boat was red bottomed. This fact has caused many to believe that she is the ill-fated James Carruthers of Toronto. The list of wrecked ship vessels lost as compiled today follows:

Lake Huron wrecks: John A. McGean, crew of 28; Charles S. Price, 28; James S. Carruthers, 25; Regina, 20; Westford, 20; Argus, 23; Hydrys, 23; Secor, 22.

Lake Superior: Leafield, 15; William Nottingham, 8; Henry B. Smith, 30.

Lake Michigan: Plymouth, 7. Lake Erie: Lightship No. 82, 6. Besides the foregoing list there are more than a score of vessels which were either totally or partially destroyed without loss of life.

Identity of Freighter.
Port Huron, Mich., Nov. 14.—With five big steamers given up for lost with all on board and practically all hope given up for three others that encountered the terrific storm during the week interest today centers again upon the identity of the overturned freighter which lies in the lake a few miles northeast of here. Weather conditions this morning indicated that it would be possible for a diver to go down and examine her before night.

Five Lost.
The five steamers for which all hope has been abandoned, are the John McGean and Charles S. Price of Cleveland, the John S. Carruthers of the Regina and the Westford, all of Toronto.

The three vessels, the description of which has not been so definitely identified, are the Hydrys, the Argus and the Secor. The loss of the eight ships with all of the crews would make a life loss of more than 160. Wreckage from both the Hydrys and the Argus has been washed ashore and the Secor has not been heard from since she sailed away in the storm. She was due to report in Chicago yesterday, it is said.

Seeking Information.
The general opinion this morning was that the unidentified overturned vessel will be found to be either the price or the Regina.

This opinion was based upon the fact that the Hydrys and the Argus were found with a Regina life belt upon it. The dead from the Regina and the Price also were washed ashore at the same point and other circumstances could indicate that the two boats had met in a collision and immediately gone down, one completely disappearing.

Two More Lost.
Cleveland, Nov. 14.—At the office of the steamship companies the two steamers Arctus, Hydrys and R. M. Scott, thought lost in the storm or the great lakes it was stated today that word had been received that the would throw any light on the fate of the vessels. The finding of wreckage of the Hydrys and Argus at Guelph, Ontario, however, has made company officials pessimistic as to their recovery.

The Sign of The Square Deal

The first sign that a merchant means to give you a square deal is when he comes out in print and tells you exactly what he is willing to do.

He is putting a promise on paper in words he cannot recall. He is giving you a written contract you have a right to hold him to.

He deserves your confidence and your consideration if you need his wares.

All things being equal choose the man who advertises in your paper against the one who does not.

Perhaps the one who does not advertise is merely an old fogey or perhaps he is afraid of something.

Even if it is simply through old fogeyism that he invites the spider to spin webs over his door—shun him.

Who wants to trade with back numbers and "never-wuzzers" in these days of live wires—you don't, do you?

JOCKEY LOSES LIFE IN TRAIN ACCIDENT

Tommie Burns, Famous Rider, Ground
Beneath Wheels of Brooklyn
Elevated.

[BY ASSOCIATED PRESS.]

New York, Nov. 14.—T. H. (Tommie) Burns, internationally famous as a jockey, either jumped or fell beneath an elevated train in Brooklyn today and was ground to pieces. No one witnessed the tragedy. The last person to see him was the station ticket seller who saw him pacing up and down the platform just before the train pulled in. His furlined coat and his hat were found on a bench. A diamond-studded cigarette case, a considerable sum of cash, a bank book showing deposits in the Berlin bank and a contract to ride there next season were found on the body. Burns spent last season abroad, but has been living in Sheepshead Bay of late. Presumably he was on his way home when killed.

Tommie Burns was one of the world's leading jockeys and was reputed wealthy. He rode for such owners as W. C. White and C. C. Daley and several years ago carried the color of the German emperor, whose entries raced under the name of Count Lehnndors. He was married and had two children.

HYDROPLANE FLIGHT FATAL TO OFFICER

Young Philippine Lieutenant Killed
This Morning in Fall From Ma-
chine into Manila Bay.

[BY ASSOCIATED PRESS.]
Manila, P. I., Nov. 14.—Second Lieutenant Richard C. Phillips, U. S. A., was killed today in a fall with a hydro-aeroplane into Manila Bay. Lieutenant Phillips, the only member of the Philippine scouts attached to the aviation corps here, was enroute to the Asiatic fleet which was at anchor in the bay when the accident occurred. A launch from the torpedo boat Deatur was the first of many craft to reach the scene. His body was picked up with life almost extinct but it was too late to save him.

The accident was due to a faulty cylinder in the motor. Lieutenant Phillips discovered the defect before he left the ground and at first decided to abandon his flight, but he afterward repaired the cylinder and ascended. He had risen to a height of 200 feet and was making a preparatory trip around the fleet before starting on his intended flight over the vessels during which he was to attempt to drop a bomb on one of them when his motor again broke down.

Lieutenant Phillips was born in Indiana in 1883 and was appointed to the Philippine scouts in 1911. He is the eldest of five children in the family of the army and navy. In aviation accidents of all kinds the world over since 1908, 414 have met death, the toll for the present year to date being 195.

GATHERING OF CHILD WELFARE SOCIETIES

Eugenics and Pre-natal Care Most Im-
portant Subjects Which Will be
Discussed.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., Nov. 14.—The fourth session of the fourth annual meeting of the American Society for the Study and Prevention of Infant Mortality, which opened here today has attracted a large number of child welfare experts, physicians, statisticians and representatives of various boards and organizations in some way concerned with the welfare of infants. Dr. L. Emmett Holt of New York, the president of the organization, called the gathering to order and will preside at all meetings.

Eugenics and parental care are two of the most important subjects which will be discussed during the meeting. Other topics which will be taken up and discussed fully by the scores of delegates include problems of infant hygiene and infant feeding, standards of training for infant welfare nursing, continuation schools and home nursing, the relation of the play to the conservation of infant life to the general ideas of conservation.

Among those who have been placed on the program for discussion of the use of vital statistics in preserving infant life will be opened by Dr. W. C. Woodward, health officer of the District of Columbia. This will include brief statements by various health officers and others on the necessity of the use of vital statistics in preserving infant life. Dr. Cressly, Dr. Cressly, W. Vibur of the census bureau is expected to be one of the speakers on that subject.

HENRY C. BARNABEE SEVENTY YEARS OLD

Veteran Singer and Comedian For
Nearly a Century and Idol of
Theater Patrons Enjoys Good
Health.

[SPECIAL TO THE GAZETTE.]
Boston, Mass., Nov. 14.—At his cheerful and pleasant suburban home near Boston, Henry Clay Barnabee, the veteran singer and comedian who for nearly a quarter of a century was the idol of countless theater patrons throughout the country, celebrated the seventieth anniversary of his birth today, surrounded by his numerous friends in and around Boston and over the telephone.

Mr. Barnabee was born in Portsmouth, N. H., Nov. 14, 1833 and after having received a public school education came to Boston where he obtained a position as a clerk in a dry goods store. He joined the Metropolitan Library Association and frequently took part in the entertainments given by the association. It was thus that he made his debut, by reciting serious and humorous material. Accidentally he discovered that he had talent as a humorist and a beautiful voice. He developed both gifts and became one of the most noted church singers in and around Boston. He made his debut as a professional singer in 1859, and after a number of years of Lyceum work, became one of the founders of the Boston Ideal Opera Company in 1879. In 1887, with Tom Karl of Vermont, he organized the Bostonians, with which company he remained until he retired.

FARM DEMONSTRATOR MEETS DISAPPROVAL

SUPERVISORS REJECT PROPOSAL
FOR COUNTY AGRICULTURAL
REPRESENTATIVE.

THOROUGH DISCUSSION

Speakers for Janesville Commercial Club Given an Hour's Hearing at Session This Morning.

For over an hour this morning representatives of the Janesville Commercial club, advocating a county agricultural demonstrator for Rock county, were given a hearing by the supervisors after which the board voted down the resolution of Supervisor M. P. Richardson embodying the scheme. 29 yeas and 9 nays, three members being absent. All but one of the Janesville members of the board voted for the resolution which was also favored by one of the Beloit men, one from Edgerton, the representative from Milton village and two township supervisors.

Opposition's Attitude.
While the members of the board thoroughly appreciated the offer of the Commercial club, presenting \$1,000 annually for two years to aid the county in giving the matter a trial, the attitude of the members seemed to be that Rock county farmers were not in need of the expert service which might be forthcoming, that farmers were at present offered every opportunity to inform themselves on the subject through reliable farm papers, bulletins from the state agricultural college and the department of agriculture at Washington, and that the opinion of any expert seemed out from Madison would be better than that of an experienced farmer who has had years of experience and who, in the end, must of necessity rely on his own judgment.

Supervisor W. P. Marquart of the town of Milton declared that farmers of today had every opportunity to secure information on farm problems and he believed Rock county would just interfere in their affairs on the part of the state.

Big Farm Problems.
Help and taxes are the big problems facing the farmer, according to Supervisor Tullius Evansville, who maintained that the farmer must use his own judgment, studying his own farm and the weather conditions in order to arrive at his own conclusions.

While the vote of the board seemed unusually decisive against the demonstrator plan, it was plain that not a few members of the board were willing to give it a trial had they been certain that the scheme met with anything like general approval throughout the county. It would have been a waste of money to have a demonstrator to assist in the matter on an unwilling constituency, although appreciating the offer and stand of the Janesville Commercial club.

The club's offer of \$1,000, to further the project, made to the board by W. H. Dougherty, who explained that in the opinion of Janesville business men, the plan was a wise one which would be productive of real benefit to the farmers. It was not a new thing, he pointed out, as such men were already employed in Illinois and Iowa, and in other lines of business, railroads and other concerns and huge sums for the opinions of theoretical experts.

Craig Points to Tariff.
J. A. Craig, general manager of the Janesville Machine company, an able and experienced agriculturist, addressed the board, pointing out other things that the new tariff law, putting the country on a free trade basis with reference to agricultural products, would place farmers on their mettle as it means vicious competition from Canada and South America. It was up to the state to provide against the waste and depletion on the farm.

Craig declared that he did this farmers needed advice of an expert nature with reference to the chemistry of soils and similar problems, now too little understood. Mr. Craig pointed out that there was an agricultural county in which two-thirds of the farms were worked by their owners, which was a most advantageous situation for the demonstrator proposition.

Prof. A. B. West of the Janesville high school faculty, talked briefly on the matter, declaring that he was personally acquainted with the Janesville and other students in agriculture, that there were many important farm questions which were crying for solutions and which would be capably answered by a farm demonstrator. He said that the farmers were anxious for information on many points and would welcome a reliable authority with whom they could consult.

A., will give a short talk on some phase of the fight against the great white plague. Interesting rolls of motion pictures will be shown.

The representative of the university and the Anti-Tuberculosis Association, Paul W. Black, arrived in the city this morning and installed the big health exhibit and the moving picture machine yesterday afternoon in the city hall.

Mr. Black has been familiarizing himself with the local conditions and will make the exhibit have a local punch. The exhibit deals with Wisconsin conditions and is the largest of its kind on display.

The exhibit is built around the idea that all the contagious and infectious diseases are preventable. The prevention will be easily accomplished with a little education along health lines. Janesville is at present exceptionally free from cases of contagious diseases with the exception of tuberculosis. Dr. Buckmaster reports only two cases of diphtheria, one case of scarlet fever, one case of typhoid, but thirteen cases of tuberculosis. Of all the preventable diseases in Wisconsin pneumonia and tuberculosis have the highest death rate. We need healthful conditions to live in and more care in personal hygiene.

Mr. Black, in a statement today, had the following to say: "When the French tried to construct the Panama canal 240 out of every 1,000 who year of the contagious and infectious diseases. The United States army instituted sanitary methods and reduced the death rate to 7.5 per 1,000. Today you can prevent some of these diseases by vaccination. Smallpox is no longer dreaded because so many have been vaccinated. We might eliminate it altogether if all were vaccinated. The death rate for typhoid costs only a few cents for protection but many dollars for cure. The death rate in the United States army for typhoid was one for the vaccinated to 385 for the unvaccinated."

"The death rate for diphtheria has been reduced over 50 per cent by the use of anti-toxin and the deaths from lock jaw 85 per cent by the use of serum."

"If we reduce the preventable diseases to a minimum in Wisconsin we may add fifteen years to the average length of life. In the past 400 years Geneva, Switzerland, has doubled the average length of life."

Sixty per cent of the deaths among infants may be prevented. One-fifth of all the deaths are among infants. The conditions in cities and towns in Wisconsin make the infant death rate twenty-five per cent higher than in the country. This is largely due to the contagious and infectious diseases which may easily be prevented."

"The loss over \$30,000,000 in Wisconsin from preventable diseases. This is more than the value of all the corn crops of the state or the oat crop, or the hay, forage and dairy products."

The exhibit consists of over a hundred screens and various models showing conditions in Wisconsin along lines of health. The exhibit is in constant demand and has received abundant press notices throughout the state and thousands have seen it elsewhere. No doubt the people of Janesville will be interested in seeing it while it is in the city."

Heart to Heart Talks

By CHARLES N. LURIE

WASTED EFFORT.

Some men waste their time in dissipation and idleness, others in useless work.

In defense of the former nothing is to be said. When their accounts are closed their frivolity and uselessness will be found out against them.

But what of the latter class? Should they not also meet with condemnation? Of such are the men who spend years in painting landscapes on grains of corn, carving cathedrals from cherry staves, building miniature ships in two ounce bottles, engraving the Lord's Prayer on the heads of pins, copying entire books of the Bible on the backs of postage stamps.

They are industrious, of course, but their industry is waste of time. Of what avail are such works of "art" and patience?

They serve no useful purpose and teach no lesson save that the time spent on them should be more usefully employed. Given the patience that is needed for their execution, the will to accomplish them might be directed into channels that would serve the world well. Bent to other ends, it might bring the possessor to fame or fortune.

There are in the world—and in busy, industrious America most of all—many men and women who spend their days in trivial tasks of no importance or value. Such are pursued with zeal and earnestness that are sometimes pathetic and sometimes irritable. One feels like saying to the wasters of time and effort:

"Drop it! Get at something useful!" Women spend hours and days in painting china pieces that are dabs when finished, or they embroider pieces that are banalistic friarings when the last stitch is put on, or they spend their days in concocting new dishes that are wasteful of good materials and conducive to dyspepsia.

Men frivol away their days at sports or occupations that are of no use to the world, if, indeed, they do not serve as brakes on the world's progress.

How is it with you? Is your work worth while? Is it good for yourself, for your family, for those about you, for the world?

Self examination in this respect will do any one good.

OUCH! MY LAME BACK! RUB PAINS AWAY END LUMBAGO, SCIATICA AND BACKACHE

GET A SMALL TRIAL BOTTLE OF OLD-TIME, PENETRATING "ST. JACOBS OIL."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out and ends the misery. It is medicinal, yet absolutely harmless and doesn't burn or discolor the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly and surely. It never disappoints!

ROYAL NEIGHBORS ASSEMBLE IN CITY

One Hundred or More Delegates Attending Southern Wisconsin School of Instruction.

One hundred or more delegates from the various lodges of Royal Neighbors in southern Wisconsin are attending the school of instruction held today at the East Side Odd Fellows' hall. Officers elected at the meeting this morning were: President, Mrs. Belle Gabriel, Evansville; vice president, Mr. Maud Lawry, Footville; second vice president, Mrs. Ina Hinckley, Milton Junction; secretary and treasurer, Mrs. Allie B. Murdock, Janesville; first auditor, Mrs. Sarah Stoneburner, Beloit; second auditor, Mrs. Gustie Townsend, Magnolia; third auditor, Mrs. Ellen Barlass, Emerald Grove.

The afternoon session was opened following a chicken-dinner served at the hall. The numbers on the program were an address of welcome by the president, Mrs. Hayne of Beloit, a vocal duet by Mrs. Murdock and Mrs. Watkins, and a fancy drill by the local team. The Edgerton delegation contributed a song. Supreme Manager Eva Child of Hanover gave an address and Triumph Camp degree team conducted the initiation of several candidates.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if you are coated, then give this delicious fruit laxative. Children love it, and it cannot cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember a gentle "inside cleanser" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

When cross, constipated or if feverish give "California Syrup of Figs" then don't Worry.

FOND DU LAC PARTY WILL INSPECT TRUCK

Committee of Eight and Mayor to Visit Janesville on Sunday, November 23.

Fond du Lac will send its mayor and a committee of eight to this city on Sunday, November 23, to make an inspection and receive a demonstration of the Seagrave motor fire truck at Station No. 2. This is the second inspection party to come to Janesville for this purpose, one from De Kalb coming here last summer. Subsequently that city purchased a Seagrave truck.

Charles D. Lillie of the Seagrave Company was in the city and with Chief Klein made a thorough inspection of the truck, which has now been in service for six months or more. With the exception of two gears in the transmission, which showed slight imperfections, the car was found to be in perfect condition. The company has agreed to replace the imperfect gears practically without cost to the city.

INVESTMENT ARMY.
It is an old saying that "figures never lie," and the statement is also ancient that "it is easy to lie with figures." Men do this sometimes through ignorance, and sometimes purposely to bolster up a weak argument.

The present national administration has outlined a reform campaign and when the currency bill is disposed of trusts and monopolies are to receive special attention. Mr. Davies of Wisconsin has been made the special emissary to stir up the animals in this fertile field, and in his maiden speech at Atlanta, the other day, he made the startling statement that a handful of men owned twenty-two billion dollars' worth of the industrial stocks of the country, or the words to that effect, with a view to make it appear that the American people were oppressed by a one man power.

Here are a few facts which Mr. Davies and his cohorts might study to advantage.

Figures already published by Dow, Jones & Co. for 112 corporations showed an army of 553,171 investors. This is not a standing army, either, for in 1912 these same concerns had over 75,000 fewer shareholders. In fact, the growth was above 13 per cent in the past year.

With so large an increase in number of stockholders, and an increase in share capitalization of less than 3 per cent in a year, there was naturally a considerable decrease in average holdings. The figures were 108.9 shares this year against 120.0 shares in 1912, a decrease of 11.1 shares, or over 9 per cent.

Two years ago, when Dow, Jones & Co. made comparisons of share distribution, it was shown in the final summary that 242 corporations had practically \$9,000,000,000 of stock outstanding, divided among 572,000 investors.

This latter summary included some of the largest corporations, such as United States Steel, which have not yet reported for 1913 and 1912. The average holdings of Steel in 1911 having been less than 73 shares per stockholder, while the share capitalization of this corporation was nearly one-tenth of the share capitalization of the entire 242 companies, it may be readily comprehended why the average holdings for the 242 companies in 1911 was smaller than the average holdings for the 112 companies so far reported for 1912.

Incidentally, it is interesting to observe that these 112 corporations have share capitalization now outstanding equal to nearly 80 per cent of that of the 242 companies, so far reported for 1912.

Incidentally, it is interesting to observe that these 112 corporations have share capitalization now outstanding equal to nearly 80 per cent of that of the 242 companies, so far reported for 1912.

It is well for a speaker or writer to state all the facts when dealing with questions of this kind, and thus avoid leaving the impression that the wealth of the nation is in the hands of a few men, who use it to oppress the people.

The Pennsylvania Railroad company is the property of 75,000 stockholders and every other road in the country is largely owned by the people, while many industrial stocks are widely distributed. The country is not suffering from monopolies, but is burdened with an overstock of inquisitorial regulation and the people are entitled to a rest.

The senators who comprise the currency committee are now hopelessly divided and two reports will be made for consideration of the upper house. It is safe to say that the whole summer has been wasted by the members of congress and they naturally feel a trifle peeved.

The German editor who kept cases on the number of persons killed by royal motor cars must have been too busy to count the number of newspapers suppressed.

The 30,000 deer hunters in the Michigan woods haven't much on the millions of stay-at-homes except the extra-hazardous rating.

In naming his "All America" team this season Mr. Campbell will be more cruelly torn than usual between the loyal and the ludicrous.

The oldest golf club in the United States will be twenty-five years old next week. So will many of America's most prized jokes.

Strange as it may seem, President Wilson did not include Provisional President Huerta in his list of guests for his daughter's wedding.

Football players who manage to survive the slaughter can join hands with the deer hunters in celebrating Thanksgiving day.

How surprised that Minneapolis shop girl must have been when she cried for help and Anthony Comstock dashed to her rescue!

The Chicago and Milwaukee breakwaters that were washed away in the storm ought not to have been left out unprotected.

Up to the hour of going to press the harrowing question as to what to do with ex-presidents was not bothering Mexico.

Take it from the eminent surgeons who have assembled in Chicago, that people are often much improved by being dissected.

Janesville does not want to try and equal Cleveland's record of twenty-four inches of snow just at present at any rate.

Wrecks by land and sea have been the leading features of this week's news dispatches and still they play football.

It seems hardly fair that these should be counted the same as any shopping days before Christmas.

PRESS COMMENT.
Palliatives.

It is true that vice cannot be entirely eradicated by law. Neither can murder. But the law should not be abolished for that reason.—Superior Telegram.

Inalienable Right.
Englishmen criticize Americans for public spitting. The right to spit everywhere is an inalienable right exercised by every American hok.—Monitor Journal.

Much Proof Needed.
Senator La Follette is patting himself on the back as he reads the election dispatches telling of the fading away of the bull moose party. Still it would take more than an affidavit to make most people believe he was "regular" himself in his voting last year.—Oshkosh Northwestern.

Divorce Justified.
The St. Paul Pioneer-Press suggests that the republican party procure a divorce from Senator Clapp on the ground of non-support and desertion. Yes, and we might add cruel and inhuman treatment and incompatibility of temperament.—La Crosse Leader.

Communism and Inebriacy.
The ladies of the W. C. T. U. have done and will do much commendable work in the interests of temperance, but they are entirely outside their province when they attempt to enforce the substitution of grape juice in communion services.

Their contention that communion wine causes the release into inebriacy of many reformed drunkards is more picturesque than truthful.

It would be well for those who insist upon unfettered grape juice at communion to study the organic effect of fermented wines a little more closely than they do. Few of the members of the W. C. T. U. have ever been inebriated, and they are therefore easily gulled by the individual who makes excuse for "going back" by saying he got the taste or the smell of liquor from a communion cup and it overcame his powers of resistance. There was never a bigger falsehood circulated as an apology for wrongdoing. The sober man who has "cut it out" and who really intends to persevere in sobriety is no more affected by a sip of wine than the most innocent child at its first communion.

It is neither the smell of liquor nor its mere taste that lures men. If they turn to their cups it is either debility or else they are impelled by eagerly that has nothing to do with either the olfactory organ or the sense of taste. These are physical attributes; the explanation of apostasy from a temperate life in one who has formerly been a slave to drink is altogether psychological. —Rockford Register-Gazette.

Tailor's anxieties.

Rah-rah-rah.
Zip-boom-bah.
Must be something wrong with pa. Always call your pa "the pater." Always call our ma "the mater." Called my pa the "pater" once To his face, and like a dancer. He said that I had a brainstorm. That I wouldn't in a rainstorm. Have sufficient sense to get in the house out of the wet. Really nuisance to be sure To have water such a bore. Am in somewhat of a quandary How to get my last week's laundry. Think that does it waste the cash. I don't pay it and buy hash. Good thing I have got a sweater. Worn it seven days or better. Got a wooden Indian sign. Last night I went down the line. Fined nine dollars and the costs. Don't think that my learnin's lost. Stole a hearse and went a-riding. Ever since have been in hiding. Something doing every minute. As a hero I am in it. God! I'd like that check from pa. Bills keep coming. Zip-boom-bah.

Our Mother's Column.
When the baby cries at night, never get up and carry him up and down the room. Make your husband do it.
It is considered the best of form to take a screaming infant to the nursery, entertain him, particularly musical comedies, for in the case it will give those around you an opportunity to forget the show. Babies should always be taken on long railroad trips, as the little darling inspire sweet thoughts in the

mind of all the passengers who want to go to sleep.
Little kids should be allowed to speak all of his pieces every time anyone comes because, you know, there is not another such wonderful four-year old in the world and all of the friends must perforce be greatly interested in him.

Never feed a three-week-old child ham and eggs, because the child is really not old enough to know that you are giving him an expensive dinner. You can feed him very easily by giving him corned beef and cabbage, and probably he will never know the difference.

According to Uncle Abner.
Hank Tunnus' wife broke her false teeth Monday chomping a pie crust. Did you ever stop to think what a blamed monotonous world this would be if every feller's wart was in the same place?

If it wasn't for tire trouble, the poor folks wouldn't have very many laughs on the road. The most impressive sights in this world is a \$5 note pulling a \$5,000 automobile out of the mud. There are three kinds of men who don't know anything about winter: they are old men, young men and middle-aged men.

It is a wise child that knoweth its own mother, during the bridge whist season.

A good banquet speaker never has to be hungry. He can always cut something at home before he goes to the banquet.
When a feller has got a six-cylinder machine, he has got six kinds of trouble, instead of four.
Miss Amy Prince, our village milliner, says that just so long as she holds Oliver Jones off and refuses to marry him, she will always get a nice Christmas present. A suitor is more liberal than a husband.

According to Uncle Abner.
Elmer Spink says what in tunket would be the condition of this country without a woman? And Hank Tunnus says, by golly, it would be a stagnation. Hank is quite comical at times and should be working for some patent medicine salesman.

William Tibbitts and family are expecting a visit from Mrs. Tibbitts' folks for a month. Uncle Erasmus Whittle of West Hickeyville died the other day and left all he had to the town. All he had was a wife and nine children. Uncle Erasmus was one of West Hickeyville's most suspected citizens and his going is regretted. Several in this vicinity regret for various amounts.

Some of the boys have been stealin' the hose out of Wide Awake Hose company's fire engine house and usin' it for weather strips. The other night when Abe Hilliker cornbly ketchin' on fire a bucket brigade was formed and instid of going down to the creek every member of the bucket brigade marched

right straight into the Golden Nugget saloon through force of habit. The cash register rang so often and so loud that the trouble was drowned out and the corncrib was a total loss. Lots of wimmen kin get money from their husbands without askin' for it, but not unless it is alimony. They must have some fair sized gas bills up in the Arctic circle where the nights are six months long, that is if there is much courtin' goin' on. A man ain't nuthin' without a wife and he ain't nuthin' after he gets one, either.

SUIT SCHEME THAT CATCHES UNWARY

Agents for Chicago Concern That Offers Automobiles As Special Premiums, Visit City.

Agents for a Chicago concern that offers to raffle an automobile, a piano, a piano-player, furniture to the amount of five hundred dollars, or give the winner four hundred dollars in cash all in exchange for a contract for thirty dollars, which is to be paid at the rate of a dollar a week and for which the signer will receive a thirty dollar suit of clothes, have been visiting in the city for several days past and have caught some unwary ones who have signed the contract. One unique feature about the whole affair is that the winning number is to be decided by the last four figures of the weekly clearing house receipts of Chicago banks. It is a lottery scheme pure and simple and the Chicago authorities are now making an investigation, and one case has been filed in the courts to prevent its being continued. Local merchants have called the attention of the Commercial club of this city to it and they will take action relative to the matter.

PROMPT WORK SAVES COTTON BATTEN MILL

Defective Wiring Responsible for Serious Blaze Thursday Afternoon.

Defective wiring caused a serious fire at the Janesville Cotton Batten Mills on North River street at half past four o'clock Thursday afternoon, and only prompt work by the fire department saved the building from serious damage. The automatic sprinkling system served to check the flames until the firemen arrived, the blaze being confined to places under the machinery where the sprinkler was unable to penetrate.

The fire started on the second floor from an electric wire, a spark following up the cord which was covered with waste cotton, catching on the cotton bating running on the belt conveyor going to the first floor and setting fire to the cotton in the carding machine and bales near the machine.

By the time the firemen had arrived the two floors were filled with smoke and it was with some difficulty that the firemen reached the flames. One lead of hose, aided by chemicals, was sufficient to extinguish the blaze and the most serious damage resulted from smoke and water, as the sprinklers had flooded the building. Heavy damage was done to the carding machine as the fire went through the machine and the clothing was ruined by the water.

BRIEF LOCAL NEWS.

To Speak in Milwaukee: Dr. David Beaton will be the orator of the evening at the fifty-fifth annual banquet of the St. Andrew's society of Milwaukee to be held December 1.

Loses Finger Tip: Rudolph Halder, employed at the Colvin bakery, lost the tip of the first finger on the carding machine as the fire went through the machine and the clothing was ruined by the water.

Nearly Completed: All that remains to complete the new concrete bridge over Spring brook on South Main street is to cast the railings and curbs and put down the brick paving. The floor was finished yesterday.

Paving Nearly Done: The brick pavement on North Division street between East Milwaukee street and North First street, will probably be finished by tomorrow night or at the latest Monday. All the brick have been laid and cement filler is being poured. Walter Helms is acting as inspector.

Dedicate Temple: Many Janesville Masons were in Beloit this afternoon to attend the dedication of the new temple at Beloit. The Beloit Masons plan to attend the celebration which will be held in the new hall this evening.

Rummage sale W. C. T. U. at Treat's building on Main street, November 13, 14, and 15th. Donations solicited.

PROF. BAILEY TO
DELIVER LECTURE

Noted Art Critic to Talk on "The Town Beautiful" at High School Wednesday Evening—All Invited.

In appreciation of the efforts of our health officer in making our city a healthful place in which to live and in further recognition of the new emphasis for a clean city, inaugurated by the Woman's Civic League, the public school teachers have secured Prof. Henry Turner Bailey, the noted art critic of Massachusetts, to give his famous lecture on "The Town Beautiful" at the high school building in assembly room on Wednesday evening, Nov. 13, at 8:15 p. m. Prof. Bailey has lectured at Beloit several times upon the invitation of Prof. Wright of Beloit College, and it is at the urgent solicitation of Prof. Wright that the teachers of the city have invited Prof. Bailey to come to Janesville. It was only possible to secure the lecture at this time because Prof. Bailey is to lecture at Milwaukee on Tuesday evening at Beloit College Wednesday afternoon and at Rockford on Thursday evening. The teachers have recognized the strong impetus given the movement of school yard and door yard decoration by the Twilight Club in years past and also the splendid work in school room decoration so well conducted by the women of the Art League in recent years.

This lecture will appeal to all those who are interested in further emphasizing the necessity of a clean and beautiful city. Prof. Bailey is undoubtedly one of the best authorities in the United States on the aesthetic side of home furnishing, school room decoration and municipal art.

FINDS HIS NAMESAKE
DRUNK; ARRESTS HIM

Special Officer John Dalton Turns John Dalton From New York Over to the Police.

"What's your name?" said Special Officer John Dalton yesterday afternoon, as he shook and awakened a drunken man who had fallen asleep upon a bench in the smoking room at the St. Paul depot.

"John Dalton," stammered the stranger, as he rubbed his eyes and tried to comprehend where he was and what was happening.

"Well, in that case there are too many of us here," said Officer Dalton. "Come with me."

John Dalton was accordingly marched to the police station in the custody of his namesake and this morning, pleaded guilty to a charge of intoxication before Judge Maxfield, who sentenced him to fifteen days at hard labor. The prisoner was frank in his reply to the questions put to him. He said his home was in New York state, that he had a sister in Richmond Center, and that he had a ticket to Madison where he intended to go to work. He admitted being fined for a similar offense in Beloit and for failure to meet a board in Richmond Center. His earnings will probably be sent to his mother in New Jersey.

OBITUARY

Sarah A. Patchen.
Funeral services for the late Sarah A. Patchen, who died in California, and whose remains were brought to this city for burial, were held this afternoon at one-thirty, at the grave in Oak Hill cemetery. Rev. David Beaton officiated. Short services were held yesterday in Highland Park.

Mrs. Mary Canary.
The remains of the late Mrs. Mary Canary, who died at the home of her daughter, Mrs. Edward Marsh, in South Chicago, will arrive in this city tonight at six-thirty, instead of 8:45, as was previously stated. They will arrive over the St. Paul road. Funeral services will be held Saturday morning from the St. Patrick's church, at nine o'clock, and interment will take place in Mt. Olivet cemetery.

Katherine Isabel Joyce.
Funeral services for the late Katherine Isabel Joyce, will be held Saturday morning at ten o'clock, from the St. Patrick's church. The six brothers of the deceased will act as pall bearers. Interment will be made at Mt. Olivet cemetery.

Lorraine K. Phillips.
For the second time in the last month death entered the home of Mr. and Mrs. Clarence Phillips of McKee Boulevard. Thursday morning, taking from them their little daughter, Lorraine. She had been ill with a complication of diseases, for the past five weeks, but in spite of all that love and splendid care could do for her, she was unable to win her way back to health and strength. She was five years of age, a bright, lovable little girl and to the doubly bereaved parents and their one remaining little daughter, the sympathy of their many friends and neighbors are extended. The remains of the infant daughter, Lorraine, who died two weeks ago, have lain in a vault in the Oak Hill cemetery and the double funeral will be held tomorrow afternoon at two o'clock. Rev. Williams will officiate. Interment will be made in Oak Hill cemetery.

WISCONSIN YIELDS
FAR ABOVE AVERAGE

Government Report Shows Big Production of Corn, Potatoes and Tobacco in State This Year.

This has been a banner year for Wisconsin farmers, according to the crop estimates, and forecasts for the state as made by the United States department of agriculture. The November report which treats especially of corn, tobacco and potatoes, shows the average for the state to be far above the average for the entire country.

The estimated yield of tobacco in Wisconsin for 1913 is 54,438,000 pounds, or an increase of nearly four and a half million pounds over last year. At the prevailing prices the crop will be worth over six million dollars to the growers. The average yield per acre in the state is estimated at 1,290 pounds, an increase of 110 pounds over last year and against the average of 785 pounds for the entire country. The 1913 crop is of a high quality in this state at 92 per cent against 86 last year and 87.4 for the entire country this year. The estimated production for the entire community is 922,855,000 pounds, an increase of nearly 60,000,000 pounds over last year.

The average yield of corn in this state this season is 35.3 bushels per acre, while the average for the whole country is but 29.2. The total yield for Wisconsin will be 58,262,000 bushels and for the country 3,124,746,000, a decrease nearly eight million bushels for the state over last year and an increase of nearly a billion bushels for the country. The quality of the Badger state crop is not quite up to the national average, the percentage standing 81 to 85.5.

Potatoes production for Wisconsin will amount to 34,438,000 bushels, an increase of two million bushels over last year. The average yield per acre is estimated at 120, an increase of eleven bushels over last year. The average acre yield for the whole country is 113.4 bushels. The total potato production for the country is estimated at 922,855,000. Quality for the Wisconsin crop is 92 percent, the same as last year, as against 90.3 percent for the whole country.

The price of potatoes to producers in this state on Nov. 1st is but 31 cents, however, as against 56 cents last year, while the present average price to producers throughout the country at the present time is 45.5 cents showing that market conditions in Wisconsin are not what they ought to be.

Wisconsin producers of wheat are getting 83 cents a bushel; 55 cents for corn; 31 cents for oats; 50 cents for barley; 23 cents for butter; \$11.70 a ton for hay; \$8.00 per hundred for hogs; \$5.50 per hundred for cattle; \$8.76 a bushel for clover seed; and 80 cents a bushel for apples. The average price for the same products throughout the United States are as follows: Wheat, 83 cents; corn, 54 cents; oats, 32.6 cents; barley, 33.3 cents; potatoes, 45.5 cents; eggs, 26.9 cents; hay, \$11.80; hogs, \$7.70; beef cattle, \$5.36; clover seed, \$9.37; apples, 61.6 cents.

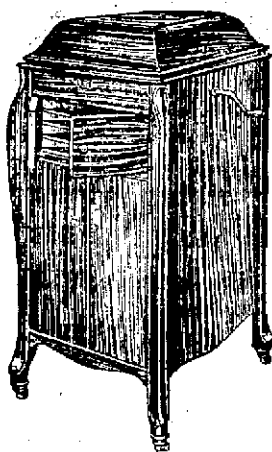

JOHN DOUGLAS KING
ELECTED SECRETARY

Successor F. H. Green as Officer of Southern Wisconsin Poultry Association.

John Douglas King was elected secretary of the Southern Wisconsin Poultry Association to succeed F. H. Green at the last meeting of the directors of the Association. F. H. Green declined to further serve in this capacity. He has held the position for several years, proving an efficient and conscientious official, but felt that its duties should now be assumed by a younger man. The other officers, all of whom were elected are: William McVicar, president; W. H. Ashcraft, vice president; Edward Amerpoil, treasurer. The members of the board of directors as it now stands are W. F. Carle, O. S. Morse, William McVicar, W. H. Ashcraft, D. King, C. E. Hemmings, Edward Amerpoil, F. H. Green, Morris Erickson, Alex Buchanan and Harry Sheldon.

January 12, 13, 14, 15, 16 and 17 have been decided upon as the dates for the 1913 show, which will be bigger and better than ever. Arrangements have been made for issuing the premium list. One of the features of the show will be an exhibit of fowls from the Rockandotte Poultry Farm, but these birds will not be entered in competition.

DAILY WEATHER MAP

EXPLANATORY NOTES.

Observations taken at 8 a. m., 75th meridian time. Air pressure reduced to sea level. Isotherms (dotted lines) pass through points of equal temperature. Isobars (dashed lines) pass through points of equal barometric pressure. Arrows show the wind. First figures, lowest temperature past 12 hours; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

A trough of barometric pressure extends from an area of low barometer in eastern Canada to one in the southwest. This trough has been the seat of a large low pressure system in the lower lake region, Ohio and middle Mississippi valleys.

High barometer prevails in the southeast, with attendant fair weather. The barometer is also high in the Red river valley, and the weather is fair and cold. A minimum of six degrees below zero was reported this morning at Minneapolis.

The area of low barometer in the southwest has diminished in strength, but is still attended by cloudiness and precipitation in the southwest. High atmospheric pressures and fair weather prevail on the north Pacific coast.

THE DEATH OF MOSES.

The Story.
No human life has ever more full
of scenic incident than that of Moses.
From his wave-rocked cradle onward
it was a march of stirring events,
profite of themes for the artist. These
circumstances come to memory with
the mere mention of Moses' name.

The climax of this series is
reached in Moses' death. No human
demise surpasses it in a certain qual-
ity of weirdness. The story is that,
on one of the many occasions on
which the Israelites "murmured" in
the wilderness, Moses was unusually
incensed against them, and cried:
"I wish now, ye rebels! Must we fetch
you water out of a rock? For some
quality this action which is not
clearly defined, Moses was denied
the privilege of entrance to Canaan.
Aaron was already dead, and Moses
had received his token. He uttered
his stately farewell, chanted his song,
and pronounced his blessing, and then
began his solitary death journey to
Nebo. There is no word of protest.
He had certainly gained in submis-
siveness since he uttered that pit-
cou's cry, "I pray thee, let me go
over." Josephus says he withdrew
amidst the tears of the people, and
that the elders and Eleazar and Josu-
ph followed him up the mount-
tain. At length he reached the peak
named Nebo. A miraculous vision of
the entire land of promise is not
necessarily involved. What he saw
was a sample of the whole to the re-
mote limits named.

The death of Moses has been idealized
until one is lost in a maze of curious
speculation. The rabbis say, for ex-
ample, that Moses died by a kiss of
the Lord. That in the act, Jehovah
drew his life from him. This is elab-
orated from the phrase that Moses
"died by the mouth of the Lord." The
burial of Moses is made a very
also. The tradition is that he was
himself buried him. The Septuagint,
however, has it, "they buried." If
those who attended to the burial of
Moses kept their secret, and made no
record of it, after their death it could
be truthfully affirmed that "no man
knoweth the place of his sepulcher."
Jude makes reference to some few
island tradition when he speaks of an
angel contending about the body of
Moses. These are matters specula-
tive. They afford a fertile field for
the imagination, but for the average
person the moral qualities of the
man are, confessedly, more important
than the accidents of his death and
burial.

Thus, for example,
the death of Moses was undoubtedly
intended to be exemplary. He was a
lawbreaker, but he must suffer in sight
of all the people the penalty of the
law which he not only gave, but also
broke. Again, it was manifestly
intended that the grace of one
whose habit was to efface himself
during his life should become the Mecca
of adulation. This self-forgetfulness
has splendid illustration in Moses
dying hour. He prays for a suitable
successor, and cries, "Let Jehovah
set a man over the congregation."
This living for others has still fur-
ther exemplification in the fact that
while he led Israel up to the thresh-
hold of Canaan, he did not enter
himself. He put them in the way of
a goodly possession, in which he was
not to have a share, even to the
extent of pressing up to the foot
of the mountain. Thus, in sacrifice of personal
aims and gains, he indicated in ad-
vance the crowning grace of the
prophet who was to be like him.
What Moses was and did, these are the dynamic
facts. What became of his body is
matter of indifference. The latter is
left uncertain, the former is recorded
with precision. Not only is Moses' name
hewn out on time as on a rock, but
"he stands on time as on a pedes-
tal."

The Teacher's Lantern.
Customs touching the disposition of
human remains are among the most
tenacious. Innovation is exceedingly
difficult. Intrusion into this sacred
realm is usually resented. But in this
celebrated case of Moses it is an
open question whether there are not
some suggestions we would do well
to heed. This was the first
"private burial" of which we have re-
cord. The obituary is also exceed-
ingly brief. The record is: "He died
there in the land of Moab, and (they)
buried him in a valley" but bur-
ied not only buried Moses, but bur-
ied the "Moses" grave also. The private
burial, brief obituary, and perhaps
even the unmarked grave are worthy
of imitation. The monument
which transmits a lovely green
sward into a crowded
and ugly stoneyard, is certainly to be
depreciated. Browning satirizes a
vulgar pride in his poem,
"The Bishop Orders His Tomb."
Moses is a fine example of the
"young old man," of whom there are
more living today than perhaps ever
before, thanks to physical culture
and hygienic observance. It should
be the rule, not the exception, to find
even in extreme age, the eye undim-
med and the natural force unabated.

STOMACH UPSET?

Get At the Real Cause—Take Dr.
Edward's Olive Tablets.

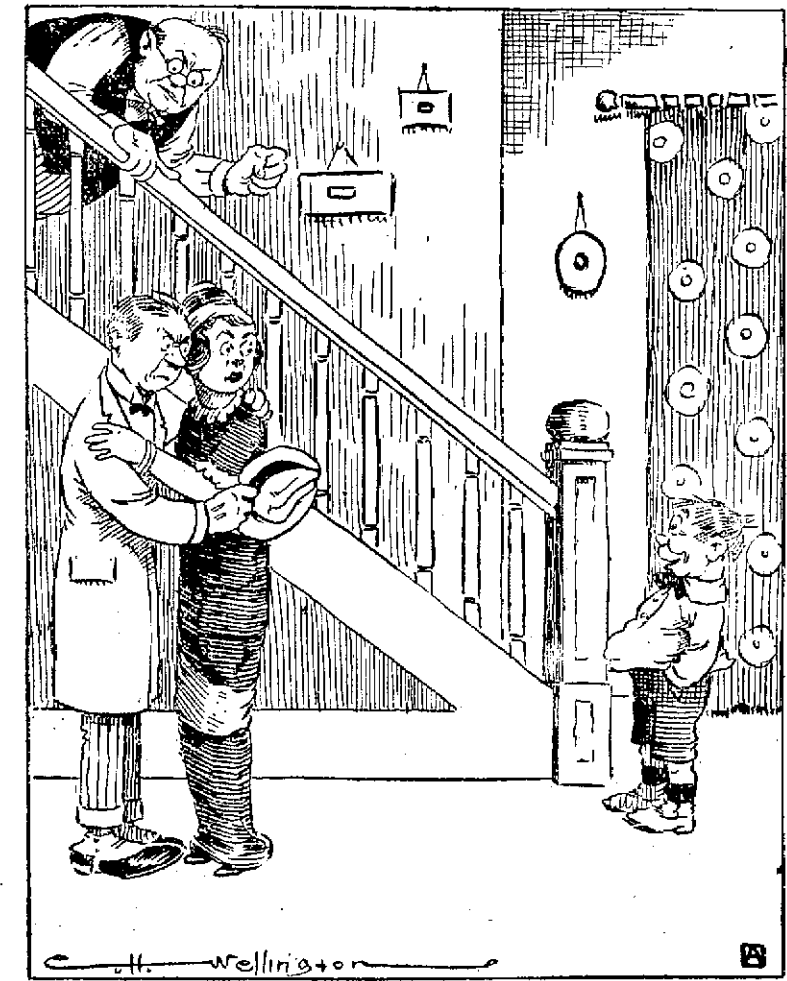

That's what thousands of stomach
sufferers are doing now. Instead of
taking tonics, or trying to patch up a
poor digestion, they are attacking
the real cause of the ailment—clogged
liver and disordered bowels.

Dr. Edward's Olive Tablets arouse
the liver in a soothing, healing way,
when the liver and bowels are per-
forming their natural functions, and
goes indigestion and stomach
troubles.

If you have a bad taste in your
mouth, tongue coated, appetite poor,
lazy, don't-care feeling, no ambition
or energy, trouble with indigestion
food, you should take Olive Tablets,
the substitute for calomel.

Dr. Edward's Olive Tablets are a
purely vegetable compound mixed
with olive oil. You will know them
by their olive color. They do the
work without griping, cramps or pain.
Take one or two at bedtime for
quick relief, so you can eat what you
like. At 10c and 25c per box. The

Temperance Facts and Figures.

The temperance question has passed
the pathetic story and personal
age. It has become a stubborn eco-
nomic problem to which every patri-
otic and human citizen must needs
give serious attention. The annual
direct and indirect cost is in round
numbers five thousand million dol-
lars. The amount of liquor con-
sumed is twenty-two gallons per cap-
ita. These figures can not be elim-
inated from the equation of "High
Cost of Living" and oppressive tax-
ation. The low cost and the light tax,
which has been America's boast and
has made her the Mecca of all the
oppressed, are vanishing before our
eyes. There will be no cure nor re-
lief until the cause is removed. It is
freely admitted that the chief cause
is the increasing production and con-
sumption of liquors.

of Le Crosse, are guests at the home
of Mrs. Charlotte Thompson.

The new Sunday school at the Con-
gregational church is finished and
will be used for the first time next
Sunday. The formal opening, how-
ever, will not take place until some
time later.

Messrs. P. T. Moore, A. N. Lawton
and Henry Moore went to Milwaukee,
Thursday, to investigate the merits of
the Friedman tuberculosis cure in the
hope of bettering the latter's health.

Misses Jean and Marjorie Smith of
Brooklyn are guests for the week of
their grandmother, Mrs. E. B. Ste-
vens, and uncle and aunt, Mr. and
Mrs. George A. Marshall. In com-
pany with Mrs. Marshall they spent

day at the home of Mrs. Leroy Sta-
bler. They took their dinner baskets
and the day was spent making arti-
cles for their fair to be held some
time in December.

The Atlantic Ocean

By GEORGE FITCH, Author of "At Good Old Stewash."

THE ATLANTIC OCEAN is the sec-
ond largest collection of wetness on
the globe. It is 20,000 miles long,
5,000 miles wide, and so deep in spots
that the tallest man who ever lived
would have five miles to go before
reaching bottom, after getting in over
his head.

The Atlantic ocean reaches from
the edge of the ruins of antiquity on the
east to the electric lighted prospectus
of tomorrow on the west. It is
cooled by the mountainous icebergs
of the polar regions, and heated at
the equator by the everlasting sun,
being thus plentifully supplied with
hot and cold water. It splashes rest-
lessly upon the fever-laden jungles of
Africa, caresses England with its
fogs, and is perfumed by the orchid
jungles of Brazil. This wild African
plunges into it off Liberia, the Equi-
no crosses the polar bear through its
surf off Greenland and at Narragan-
sett the millionaire dives gleefully
into its rolling billows in front of a
thousand cameras. It brings the
mackerel to Norway, the sardine to
France and the sea-serpent to Atlan-
tic City. The snow white yacht of
the captain of industry and the dug-
out of the cannibal are both at home
in its waters. It washes four cap-
itents and a hundred nations, accord-
ing to our voracious geographies.

thus being by far the largest land-
dry plant in the world.

The Atlantic is calm and handsome
in fair weather and can be navigated
with impunity by man. But it is not
civilized and never will be. Twice
then thousand ships wear narrows
through it year by year, and it has
had advantages far beyond the ordi-
nary, carrying the beauty and chiv-
alry of all nations on its back for
weeks at a time. But for all that
the Atlantic has no manners. Many
a time it has nonchalantly tossed a
king into the corner of a stateroom
and has caused the queens of mighty
nations to wish they were dead. Men
have struggled with it for centuries
and have built ships so large that
the English language has had to be
enlarged to describe them. But none
of them has been too large for the
Atlantic to swallow at one gulp.

The Atlantic is not too wide to
keep the working poor of Europe
from America or the idle rich of
America from Europe. But it has
thwarted the American against the po-
pularity system, Monte Carlo, the over-
grown standing army, dog meat sand-
wiches, the marriage of convenience
and the French duel. We should
love it deeply for these services.

Choosing The Right Fabrics For Your Fall and Winter Garments

In selecting the fabrics for her Fall and Winter clothes, the
wise woman demands style and dependable quality. You can
be sure that your fabrics are up-to-the-minute in fashion, of the
most dependable quality and at the right price, if you select
your Dress Goods at The Big Store.

It is not necessary for us to write an essay on the value of
our goods. A personal inspection of our stock will convince
you that you can do better here than elsewhere. Give them a
chance—they will talk for themselves.

Below are instanced a few of the new fabrics (some just re-
ceived this week), samples of which will be forwarded, on re-
quest, free by mail, to any address.

lutely unknown where Pape's Diapep-
sin is used. It really does all the
work of a healthy stomach. It digests
your meals when your stomach can't.
It leaves nothing to ferment, sour and
upset the stomach.

Get a large 50-cent case of Pape's
Diapepsin from your druggist, then
eat anything you want without the
slightest discomfort or misery, be-
sides, every particle of impurity and
Gas that is in your stomach and in-
testines will vanish.

Should you be suffering now from
Indigestion or any stomach disorder,
Biliousness, Heartburn, Water brash,
you can get relief in five minutes.

A Wise Housekeeper Is Always Prepared

The days when the house is cold in the early morning
are here, and there will be many of them. Days when

RUSH FOR CROPS IS REPORTED QUIETER

Flurry is Thought to Be About Over for the Present at Least—Crop Unusually Large This Year.

There has been a gradual decline in the rush for tobacco crops that took place a few days ago and the big firms have been gradually calling off their buyers. In consequence prices have dropped somewhat although they are still holding their own. Prices have been ranging from 1 1/2 and 2 to 15 1/2 and 4. The growers have so far finished their other field work and the crop has so well cured in the sheds that the first casing weather will see deliveries start and some of the larger warehouses in the county open for their winter packing. The Edgerton Tobacco Reporter says of the crop as a whole:

The present indications are that the crop returns which Wisconsin tobacco growers are to receive for the 1913 crop will exceed almost any other year since this crop became an important industry. A good many of our farmers who have been able to put in a good crop of tobacco already count on receiving around \$200 for each acre devoted to this crop. For 1,500 pounds is certainly not an excessive yield and scarcely above the average for some years. Any tobacco crop that brings in the grower from \$150 to \$200 and sold previous to the time of delivery is pretty sure to bring into the growing sections of the state not far from the holiday season five to seven million dollars of outside money, and if every tobacco grower does not receive a new impulse in the accession of that amount of clean, cold cash, we shall be greatly disappointed. As a sure ready-money crop tobacco is certainly maintaining its popularity, and much new acreage might be expected the coming season were it not for the difficulty experienced in securing the necessary amount of help at certain stages in its culture.

DULL TRADE TODAY IN HOGS AND SHEEP

Heavy Receipts Result in Slow Trade On Live Stock Market This Morning.

Chicago, Nov. 14.—Heavy receipts of hogs and sheep resulted in a slow trade on the live stock market this morning. Hog prices were slightly lower with a few exceptions. The sheep market was quiet. LOCAL MARKETS.

Fish today brought forth an early demand for the finny tribe members and fine quality goods awaited the early orderers. Halibut steak proved popular, rivaling with salmon, which sold at eighteen cents for the majority of the dealers. Both were very choice. Trout and dressed bullheads sold well at sixteen and eighteen cents. Many dealers offered perch and herring at cheaper prices. Plenty of grapefruit is on the local market and various prices govern their sale, most of the dealers selling them for ten cents or three for a quarter. The fruit is not as large as later products will be, but is of excellent quality.

PER CAPITA EXPENSE FOR CITY IS SMALL

JANESVILLE'S ECONOMICAL POLICY IS SEEN IN COMPARISON WITH OTHER CITIES.

PAY HIGH FOR LIGHT

Citizens Pay for Reputation of Best Lighted City in State at Rate of \$1.13 Each Per Annum.

Janesville's annual per capita expenditure is \$16.42, which is next to the lowest in the state in cities of Janesville's size, according to the figures compiled by the state tax commission, tables of which have been received by Mayor James A. Fathers. The tables indicate not only the total per capita expense in cities of the second and third class, but also the per capita expenditures for the various purposes, such as highways, fire, police, education, recreation and the like. The cities included in the comparison with their populations are: Beloit, 15,125; Green Bay, 25,236; Janesville, 13,894; Manitowoc, 13,027; Marinette, 14,610; Oshkosh, 23,062; Sheboygan, 26,389; Superior, 40,384.

Janesville Second Lowest. The per capita expenditure in Sheboygan is the lowest of the group at \$15.38, their total cost of carrying on the city business being \$553,553. Janesville is next lowest with the total figure at \$228,180. Marinette crowds close with the per capita figure at \$16.51, then Green Bay at \$17.83; Beloit comes next with \$18.38; Oshkosh's expense is \$19.19 per capita; Manitowoc \$21.26; Superior \$20.49.

It is interesting to note the expense of the council and mayor in the various cities. Of the three cities in the list which are commission governed, Janesville, Oshkosh and Superior, the per capita cost is lowest in Janesville at \$2.26 for Superior and \$2.34 for Oshkosh. Green Bay and Marinette, both governed under the old council system, spend more per capita for this department than the commission cities, the figures being \$3.32 and \$3.24 respectively. Sheboygan and Beloit each have \$1.15 and Manitowoc only \$1.12 in this expense item.

Fire Protection Cost. The cost of fire protection is the largest one item of expense in all the cities compared, with Janesville standing fifth highest, and Beloit second highest. Those figures are as follows: Superior, \$2.36; Beloit, \$1.93; Manitowoc, \$1.75; Marinette, \$1.69; Janesville, \$1.65; Green Bay, \$1.56;

Oshkosh, \$1.53; Sheboygan, \$1.98. The per capita police expense is the most uniform of all the expenditures although Superior is again way to the top with \$1.20, over twice as much as the average. The figures for the rest of the cities are as follows: Oshkosh, \$1.07; Manitowoc, \$1.04; Beloit and Green Bay, \$1.02; Janesville, \$1.01; Sheboygan, \$1.00; and Marinette, \$0.97.

In but one item, that of lighting, Janesville stands far above any other city in the state, demonstrating the fact that this city is paying well for its reputation as the best lighted city in the state. The per capita cost for lighting is \$1.13, while Oshkosh with \$0.75 is the next highest; Beloit spends \$0.63, Green Bay \$0.61, Manitowoc \$0.56, Superior \$0.53, and Sheboygan \$0.53.

Lighting Cost High. Janesville's annual expenditure for lighting is \$15,645, Beloit's is \$9,609, Oshkosh \$24,792, Green Bay \$15,355, Manitowoc \$7,235, or less than one-half that is paid in Janesville, and Superior \$21,475.

"Janesville certainly is a well lighted city," said Mayor Fathers in discussing this item in the table, "but it seems as if the cost is a little high. We are now getting the service under a five year contract which was made by the common council several years ago. When this contract runs out we hope to make a different contract which will provide regular lights at a short distance apart on the curb, for the principal streets at any rate."

Elections in Janesville are conducted with unusual economy in comparison with the other cities, the expense being seven cents, against 20 cents for Beloit, 12 cents for Green Bay, 12 cents for Manitowoc and Superior, 10 cents for Marinette and only 4 cents for Oshkosh.

Item of Schools. Although Janesville schools are recognized as among the best in the state, the city's expenditure is comparatively small at \$4.73. Beloit spends \$8 per capita for this item, Manitowoc spends \$7.30, Green Bay \$6.25, Oshkosh \$5.52, Marinette \$4.93 and Superior \$5.41.

Janesville is quite liberal in the matter of library expenditures with 2 per capita of 40 cents, the largest of any of the cities compared. The list shows the following expenditures for this purpose: Beloit 30 cents, Superior 29 cents, Marinette 32 cents, Oshkosh 27 cents, Green Bay 27 cents, Manitowoc 29 cents and Sheboygan 18 cents.

In the matter of recreation and parks the figures vary considerably and are as follows: Superior 44 cents, Oshkosh 27 cents, Manitowoc 19 cents, Janesville 10 cents, Green Bay 7 cents, Sheboygan 8 cents, Marinette but 3 cents, while no figures are given for Beloit.

The Highway Figures.

It is hardly possible to give a satisfactory comparison of the cost of highway construction for the reason that the per cent paid for by the city varies, in some cases the property owners standing the largest amount

and in other cases the city. In some cases bonds are sold for highway and sewer construction work. The figures given in the table take account merely of the cash transactions and are of practically no value for the purpose of comparison.

Considering the items of board of public works and engineering expenditures for the purpose of fair comparison we find the following: Janesville 24 cents, Green Bay and Beloit 17 cents, Superior 30 cents, Sheboygan 16 cents, Oshkosh 19 cents, Manitowoc 12 cents and Marinette 13 cents.

For street cleaning the comparison is as follows: Green Bay 47 cents, Beloit 31 cents, Janesville 30 cents, Manitowoc 32 cents, Oshkosh 24 cents and Sheboygan 27 cents.

For sprinkling the cost is as follows: Sheboygan 39 cents, Oshkosh 24 cents, Manitowoc 26 cents, Green Bay 8 cents, Beloit 7 cents and Janesville but 3 cents, in the last named cities the majority of the sprinkling being paid for by property owners on private subscription.

Municipal Debts. The debt transactions are actual payments on interest and principal, not sinking fund charges. The per capita interest item is as follows: Sheboygan \$1.02, Green Bay 73 cents, Manitowoc 62 cents, Janesville 58 cents, Oshkosh 58 cents, Marinette 44 cents, Beloit 36 cents, Superior 10 cents. On the principal the per capita is as follows: Oshkosh \$5.09, Marinette \$4.51, Manitowoc \$3.78, Janesville \$2.68, Green Bay \$2.30, Beloit \$2.28, Superior \$1.1, Sheboygan \$3.56.

The per capita payment of state and county taxes in the various cities is as follows: Green Bay \$4.42, Superior \$3.94, Janesville \$3.31, Beloit \$3.14, \$4.21, Manitowoc \$4.06, Marinette \$3.26, Oshkosh \$2.60, Sheboygan \$2.60.

The New Birth

By REV. HOWARD W. POE
Moody Bible Institute, Chicago

TEXT—Except a man be born again he cannot see the kingdom of God. John 3:3.

Nicodemus was a good man, and an earnest seeker after truth. It was for this reason doubtless that he came to Jesus by night, in order that he might have an uninterrupted interview. He acknowledges the divinity of Jesus, and though an official teacher of the Bible himself, he humbly takes the place of a disciple. If I mistake not, this was his attitude: "Teacher, I have many rules and precepts by which I govern my life, but when I hear you speak, I feel as if I knew nothing. O, teacher, tell me your rule for holy living! Tell me all you know!"

And the master replied, "Nicodemus, you are trying to save your soul by good works; by fasts, and gifts, and sacrifices. This is not the way. What you need is not new rules, but a new heart; not learning, but life; and life always begins with birth. 'Except a man be born again, he cannot see the kingdom of God.'"

What the New Birth Is Not. It is not an improvement of the old nature. The bible represents human nature as hopelessly bad, incurably sinful.

It is blind: "And when we shall see him, there is no beauty that we should desire him." (Is. 53:2.)

It is wicked: "The heart is deceitful above all things and desperately wicked." (Jer. 17:9.)

It is at enmity with God: "The carnal mind is enmity against God." (Rom. 8:7.)

It is dead: "And you hath he quickened who were dead in trespasses and sins." (Eph. 2:1.)

This is human nature as God describes it. It is not capable of improvement, and God does not attempt it. "Not subject to the law of God, neither indeed can be." (Rom. 8:7.) When a bell has been cracked it gives out a hoarse guttural sound which is very annoying. You may bind it with hoops and bands, but nothing will restore the clear sweet tone. The only remedy is to send it back to the factory, melt it over, and recast the bell.

What Is the New Birth? It is the imparting of a new nature which is Jesus Christ. "A new heart will I give you, a new spirit will I put within you."

I have a friend who has six acres of greenhouses. A large part of his business is the culture of roses. He imports the wild stock from Ireland because it is peculiarly hardy. He does not put the wild rose-bushes into the greenhouse just as they are, and cultivate them. If he did, he would obtain only wild Irish roses which are not worth ten cents a thousand. The first thing he does with the wild stock is to graft it with buds from the choice roses which he wishes to produce. Then he places it in the greenhouse, and uses all the appliances known to modern flower culture, and the result is—those elegant General Jacquet and American Beauty roses which sell for several dollars a hundred.

Man is like the wild rose. He cannot produce the fruit of the spirit because there is no holy spirit in him, until Christ has been accepted. Neither can he forgive his sin, nor resist its power. God's way is to impart unto him a new divine nature which is able to overcome sin, and produce the fruit of righteousness.

By believing God's word. Man was lost by doubting God's word, he is saved by believing it. "Being born again, not of corruptible seed, but of incorruptible, by the word of God, which liveth and abideth forever." (1 Pet. 1:23.) "Whereby are given unto us exceeding great and precious promises, that by these ye might be partakers of the divine nature." (2 Pet. 1:4.)

The Results of the New Birth. I. An immediate deliverance from the guilt of sin. "There is now no condemnation to them that are in Christ Jesus." (Rom. 8:1.)

II. A consciousness of divine sonship. "Because ye are sons, God hath sent forth the spirit of his son into your hearts, crying, Abba, father." (Gal. 4:6.)

III. A love for other Christians. "We know that we have passed from death unto life because we love the brethren." (1 John 3:14.)

When an egg is laid, in the midst of the white fluid floats a little germ of life, which though invisible, yet contains the chick which is to be. Day by day during the process of incubation the germ of life grows and the white fluid disappears, until at length the chick steps forth from the shell, and the white fluid is all gone.

So when one is born of God the Christ-life enters and coexists with the self-life.

Still in Danger. "Is the patient out of danger yet?" "Well, not altogether. The trained nurse is still with him."—St. Louis Republic.

NUMEROUS BUILDINGS ARE FOUND DEFECTIVE

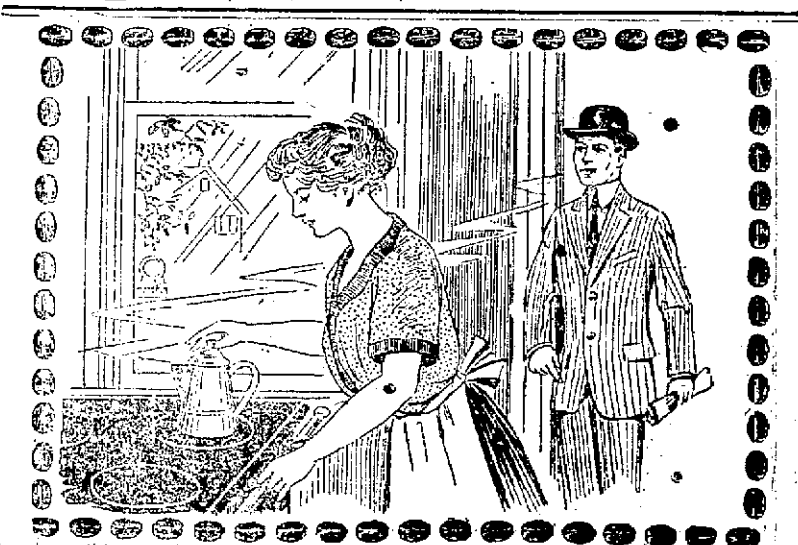

Chief of Fire Department Klein Has Served Notices Upon Twenty-seven Property Owners.

Many Janesville mercantile, manufacturing, and business blocks are inviting the outbreak of fires according to the Chief of the Fire Department H. C. Klein who has been making an inspection in accordance with a law enacted by the last state legislature. Although he has completed only about one-quarter of the work he has found it necessary to serve notices of defective conditions upon twenty-seven property owners. As far as he has been able to ascertain not more than two have followed his directions.

Inexcusable accumulations of inflammable rubbish and defective electric wiring as the prevailing invitations for fire although there is one place of public assembly that is lamentably wanting in fire escape. If the chief finds that he has authority to order the installation of fire escapes such an order will be served. There is some question whether this authority does not lie with the state factory inspectors. Chief Klein commenced his inspections on October 1 and has since been devoting his spare time, principally afternoons, to this work. He expects to finish the work by December 1, which means that he will be kept very busy from the present until that time. Assistant State Fire Marshal J. E. Flory was in the city yesterday and called upon Chief Klein.

Pleasures of the Table.

"Then I commended mirth, because a man hath no better thing under the sun than to eat, and to drink, and to be merry."—Ecclesiastes, 8:15. "And I will say to my soul, 'Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, and be merry.'—Luke 12:19. "What advantage it me if the dead rise not? Let us eat and drink, for tomorrow we die."—I Corinthians 15:32. "Let us eat and drink, for tomorrow we shall die."—Isaiah, 22:13.

To prevent disease—resist disease germs

SMALLPOX is prevented by vaccination — the injection of vaccine. DIPHTHERIA is prevented by the injection of anti-toxin.

These enable the body to produce substances which prevent the growth of smallpox and diphtheria germs in the blood.

There are many other diseases, nearly, if not quite as dangerous, and far more common — typhoid fever, the grippe, bronchitis, pneumonia, catarrh, rheumatism, and a score of others — that can be prevented less painfully and more easily by making the body strong to resist germ infection.

Rexall

Olive Oil Emulsion

(With Hypophosphites)

Is designed for the prevention as well as the relief of disease — by enabling the body to overcome the germs. It, at the same time, strengthens and tones the nerves, nourishes the blood, puts the entire system into a proper healthy condition to combat and successfully resist disease.

Every person not in perfect health has incipient germs of some distressing ailment in his or her system.

Cold weather, over-work, excesses of any kind, are liable to bring about just the conditions under which those latent disease germs will get the upper hand, and put you on your back "down sick."

You who are run-down, tired-out, nervous — You who, though not sick enough to give up, still don't feel good —

You who are apparently well, and want to stay well — Take home a bottle of Rexall Olive Oil Emulsion today, and use it as a means to get well and keep well.

Rexall Olive Oil Emulsion is a real nerve-food tonic.

In this it is different from most other so-called "tonics" which either have no food value and do nothing more than temporarily stimulate you, leaving you in a worse condition than before, or, having food value, still

are so unpleasant to take that many people can't keep them down.

Rexall Olive Oil Emulsion is pleasant to take. The Hypophosphites it contains tone the nerves. The pure Olive Oil nourishes both nerves and blood.

Rexall Olive Oil Emulsion strengthens you, puts snap and ginger and vitality into your system. It makes you feel better and stronger. It improves your digestion and your bowel action.

It contains no alcohol nor any dangerous or habit forming drugs.

It is guaranteed to be just as represented above — to do all that is claimed above — to satisfy you in every way, or your money back without quibble or question. Enough for full two weeks' treatment, \$1.00.

Sold only at The Rexall Stores — the World's greatest Drug Stores — and always with a full guarantee of complete satisfaction, or your money back.

Every Home Needs This Great Remedy

No Home Can Afford to be Without a Mild, Reliable, Laxative-Tonic.

No well-regulated home should be without a laxative, for there is scarcely a day in a family of several persons that someone doesn't complain of a headache, of sleeplessness, or show the first signs of a cold.

A laxative then becomes a necessity or what was a trifling congestion at the beginning may run into a serious cold or fever. No harsh remedy is needed, but simply a mild laxative- tonic that will make the liver active and stir up the bowels. People who have tried a great many things, and are themselves heads of families, who have seen the little ills run to big ones, will tell you that there is nothing better than Dr. Caldwell's Syrup Pepsin, which you can obtain at any drug store for fifty cents or one dollar a bottle, the latter being the family size.

Among the great believers in Syrup Pepsin for a general household emergency remedy, is Mrs. M. F. Smith, 710 N. Cherry St., San Antonio, Tex. To use her own words, she says she will bless Dr. Caldwell to her dying day, for she believes that through his remedy, Syrup Pepsin, she found the way to permanent good health.

Dr. Caldwell's Syrup Pepsin is scientifically compounded and its purity is vouched for. Mothers give it to tiny babies, and grown people, taking a little larger amount, find it equally effective. It is mild and gentle, pleasant.

AFTER SICKNESS OR OPERATION
It is a pathetic mistake to accept drugs or alcoholic mixtures when nature craves nourishment to repair the wasted body and restore the vigor of health.

For forty years the best physicians have relied on the wholesome predigested nourishment in SCOTT'S EMULSION which is totally free from alcohol or opiates.

Scott's Emulsion sharpens the appetite—renews blood—nourishes nerves—strengthens bones and restores the courage of health to make life bright.

Scott's Emulsion sets in action the very forces that promote health. Its purity, richness and strength has stood the test of forty years.

WOMAN'S PAGE

The Evening Chit-Chat

BY RUTH CAMERON

SOME OTHER KIND OF TROUBLE.

A GREAT trouble has come into the life of mine. Her husband, a man in the early prime of life, has had a stroke of paralysis and lies dumb and helpless on his bed.

My friend has never had any serious trouble before and she takes it very hard. When any one tries to comfort her she says, bitterly, "It's such a horrible thing to have happen. I know everyone must have some trouble in their lives, but it seems as if I could have borne some other kind of trouble better than this."

Some other kind of trouble is always easier to bear than the particular brand that falls to our lot.

Any other kind of pain is less painful than the variety with which we are suffering.

Of course we are sorry for our neighbor when he meets with a bereavement but we are sure that no sorrow can possibly be as poignant as our own.

A certain woman lost a splendid son in the full prime of young manhood. It was a terrible blow to her and seemed to change her whole outlook on life. When she hears of a mother who has lost a baby or a young child she says, "Yes, that must be hard, but it can't be like losing a full-grown son. When I lost John it wasn't only the loss of my child I had to bear, but the loss of my friend and the prop I hoped to lean on in old age."

On the other hand, I have recently come into considerable contact with a woman who has just lost her baby, a beautiful little boy, barely two years old. Hoping to divert her for a moment or two from her own grief, I spoke of the first woman's loss and how bitterly she grieved over it. "Yes, that must have been terrible," said the young mother, her eyes filling. "I am so sorry for her, but it cannot be so hard as losing a little baby. Babies are so dependent on you. You are doing something for them every moment of the day, and when they go away it means such a terrible emptiness. Besides, she had her child thirty years and I only had mine two."

So it ever goes, and somehow I am sure that if one could ask a mother who has had both experiences, which loss was the easier to bear, she would tell you "Neither."

No pain, no trouble, no grief is easy to bear. Then wish not for some other kind of trouble instead of your own, lest that be given you also, to teach you the lesson that the other man's trouble is as great as yours.

HOUSEHOLD HINTS.

THINGS WORTH KNOWING.

A good way to extract the juice from beef is to broil the beef on a gridiron for a few minutes and then squeeze with a lemon squeezer.

To keep starch from sticking, mix any dry starch with a little water and before pouring on the boiling water shake in a little white soap. No steam will ever form over the top nor will the iron stick to the cloth.

Lard pails are useful for storing sugar, coffee, rice, etc. Watercress minced fine and mixed with mayonnaise makes a delicious sandwich.

THE TABLE.

Walnut Cake.—One-half cup of butter, one cup of sugar, yolks of three eggs, one cup of milk, one and three-quarters cups of flour, two and one-half teaspoonsful of baking powder, whites of two eggs, three-quarters cup of walnut meat broken in pieces. Mix the ingredients in the order given. Bake forty-five minutes in a moderate oven. Cover with White Mountain cream, crease in squares and put one-half of a walnut on each square.

Butter Tarts.—Two cups of light brown sugar, one-quarter cup of molasses, two tablespoonsful of water, and seven-eighths teaspoonful of salt. One-quarter cup of butter, two teaspoonsful of vanilla. Boil first five ingredients until when tried in cold water the mixture will become brittle. When nearly done, add butter, and just before turning into a pan add the vanilla. Cool and mark in squares.

Minced Mutton.—Two cups of chopped cooked mutton, yolks of six hard-boiled eggs, three-quarters teaspoonful of mixed mustard, salt, cayenne, one cup of cream, one-quarter cup of wine. Mash the yolks and season with mustard, salt and cayenne. Add the cream and mutton. When thoroughly heated add spoonfuls of vanilla. Boil first five

love with a young man who belongs to a somewhat different set than and in fact he might be said to be in "society." He is very good to me and has introduced me to his mother and family and quite a few of his friends.

But he seldom takes me out in the evenings. He will see me sometimes two or three times a week and then drop me altogether for a fortnight or so. Several times he has asked me to marry him.

I like to attend the theater and dances and so on. He scarcely ever offers to take me to these and as I loved him I tried not to think of these things.

Lately he has been showing quite a little attention to another girl—one of his set—and I too have met another young man who seems to care a great deal for me. He takes me out a great deal and has spoken of matrimony.

Which of these young men would make the best husband? I still love the first one and while with the second I think of the one I love continually.

ONE IN DOUBT.

There is only one bit of sane advice for a girl of twenty in such a position. Do not marry anyone for a while.

Do not marry a man you do not love simply because he loves you. The fact that you cannot forget the first man does not argue that he would make a good husband. Too often a young girl will regard the persistence of an idea as undoubted evidence of true love. An image of this sort is not always fixed by genuine sentiment.

Until you feel less bewildered in the matter and can come to a more natural decision, delaying the matter is the wisest thing to do.

Dear Mrs. Thompson: I would like to wear low collars, but my neck is too thin and I wish you would tell me how I could improve it.

NELLIE.

In the first place, whatever exercise you select do not overdo it, because frequently a case of gout is the result from carrying them to the extreme.

Extend the head forward till the chin touches the neck and continue this till tired. Then bend the head backward in the same manner and for the same length of time. Sitting erect in a chair bend the head from one side to the other and after discontinuing this upon rising, try rolling the head from side to side and forward. Try these exercises every day for at least five minutes.

THE KITCHEN CABINET.

HOW many smiles there could be

How many smiles there will be, My friend, when you and I Have learned to practice what we wish There's other folks would try! —John Trowbridge.

HINTS WORTH KNOWING.

Here is a suggestion for fixing a pine or soft wood floor which is certainly invaluable. Smooth off the floor, filling all the cracks with filler or putty, and then paint it with a coat of sodium silicate (soluble glass), the same that is used to preserve eggs. It will also preserve floors and save the back of the woman who has to scrub and clean them. The water-glass will dry almost immediately, and three coats should be put on, one right after the other. If you wish to change the color of your floor, add yellow ochre or Vandyke brown (water colors, not oil). Try on a board until the color desired is obtained. When the paint is dry, cover it with a coat of three parts boiled linseed oil and one part Japan dryer, mixed. Any kind of a floor or old furniture may be treated in this way.

Apply a raw white egg to a cut; it will keep out foreign matter and allay the pain.

For a cough, a roasted lemon is both healing and pleasant to take. Roast the lemon carefully until thoroughly hot, then squeeze the juice into a cup containing a few tablespoonsful of sugar. Take a spoonful whenever the cough is troublesome.

Burn a little camphor gum in the closets where moths have been found. Close the door and keep the fumes in as long as possible.

A piece of camphor gum in the silver chest will keep the silver from tarnishing.

A lump of lime kept in the fruit closet will keep mold from forming on jelly and preserves.

When peeling onions, a pair of auto goggles worn will keep the eyes from troubling.

Keep a list of easily prepared dishes inside the cupboard door or in an equally handy place, so when unexpected company arrives in the flurry of trying to think of something to eat no time need be lost.

Slip a paper bag over the egg beater when whipping a little cream in a bowl, so there will be no splatters.

A dish mop is a good window cleaner. Use two, one to wash and the other for polishing the windows.

Bread dipped in milk and baked makes delicious rusks to serve with salad or soup.

Nellie Maxwell.

Comb With Removable Teeth. A comb having teeth that can be removed and replaced in case of breakage is a novelty on the market. It consists of a back and filler strip, and 44 teeth, any or all of which may be taken out and replaced through the back when the filler strip is removed. This is done by laying the comb on a hot plate for a few minutes, when the expansion of the rubber loosens the strip.

ANSWERING SOUTHERN GIRLS' PLEA FOR RECIPES FROM DIXIE.

A letter from "a Southern girl," dated Ravenna, O., reached me the other day while lecturing in St. Louis. The writer wishes recipes for sweet potatoes and corn bread, such as her "mother used to make."

I frankly told the first St. Louis audience that I had not come to teach them how to make corn bread, but to learn how. They were most generous in giving me their good recipes for Southern cooking. Although that city is not in the real South, there is very good evidence of much of the real good cooking for which Dixie is famous.

I hope the following recipes, donated by housekeepers of St. Louis, will prove the real thing to our "Southern girl."

Southern Corn Bread.

Materials.—Flour after three fourths full of cornmeal; flour, one cup; salt, one teaspoonful; baking powder, two teaspoonsful; baking soda, one-quarter teaspoonful; eggs, two; vegetable fat, two tablespoonsful; cold water.

Directions.—Put cornmeal (preferably white) flour and salt into the flour sifter and sift into a bowl. Make a well in the center and break in the eggs. Add the vegetable fat, the baking powder and soda, thin with cold water a lit-

tle at a time to make a batter which will just run from the spoon. Beat well; have the fat melting in the pan (not too deep) in which this corn bread is to be baked. Turn the fat into the batter, beat well again, turn this into the pan and bake 15 or 20 minutes in a moderate quick oven.

Spoon Bread.

Materials.—Cornmeal, two cups; boiling water, two cups; eggs, three; salt, half a teaspoonful; sugar, two tablespoonsful; butter, one tablespoonful; milk, two cups; baking powder, two teaspoonsful.

Directions.—Add the water to the cornmeal; mix ingredients in the order given, beating whites and yolks separately, adding white last. Bake like corn bread. This is delicious, but much more moist than cornbread.

Baked Sweet Potatoes, Southern Style.

Roll sweet potatoes until they are half done. Remove the skins and cut them into lengthwise slices. Put a layer of these slices into the bottom of a baking dish, sprinkle over two or more tablespoonsful of light brown sugar, a tiny bit of cinnamon and bits of butter. Repeat these layers until all is used. Pour one or two tablespoonsful of hot water into the pan and cook in a rather slow oven until the potatoes look clear and you have a rich syrup. Serve from the dish in which they are baked.

Every Day Talks for Every Day People

BY FRANCES JOYCE KENNEDY.

It seems to be a popular belief that no woman that is not a trained sewer can make a tailored suit; at least not the coat. This season, when skirts are narrow, making it less work to handle and drape and materials are soft, easier to finish, as there is not so much stiffening, in fact none except in the coat, why not try to make for yourself a suit?

Where the home sewer is apt to ride to a fall is in selecting material. Cloth that stretches out of shape easily or is too heavy for stitching or pressing by a novice should be left strictly alone. Sponge and shrink your goods before you use it, and in cutting consider the nap or finish of the goods. Napped goods should be cut with the nap running down, except kimono and one-piece goods.

Before you lay your pattern on the goods compare it with your own measurements, see what alterations, if any, are to be made, and then lay the skirt pattern first, as the smaller pieces of the coat pattern will fit in around the larger pieces.

The skirts being made with draping makes it necessary to fit the entire skirt, as draped skirts do not admit of making the both sides alike.

A long step towards success at the end of your work lies in treating your unfinished work and material, correctly, as folding your goods as soon as cut, hanging basted garments on a hick or hanger instead of laying them down. Good care given the unfinished product will insure a much better finished article.

As the present fashions demand that most everything be soft and shapely, canvas, if used at all, must be soft and pliable. A loosely woven linen that is sold for this purpose is really enough body for a coat this year. It must be thoroughly shrunk before you use it. Don't omit it.

A narrow piece of sheet wadding in the top of the sleeves will hold them in position over the tip of the shoulders.

Overhand the collar to the neck of the coat and sew a narrow strip of cambric flat to the canvas on the front edges of the coat and at the turning line on the lapels, as this prevents the garment from stretching.

A tailor's pad is generally not to be found in the average home, so take a good-sized bath towel, fold, tie as tightly as possible, around this fold several thicknesses of cheesecloth, and you will have a splendid pad for pressing all curved portions of the coat. Use a dry cloth over one wrong out of water and in pressing, press the goods not iron.

Much more might be said to advantage concerning the making of a tailored suit or coat; but in getting your pattern if you buy one that has all the directions on, and follow them, there is no reason why you can not have a suit that will be satisfactory to the eye and purse.

One thing more: The finished look that the gown coming from the tailors have, that the home-made one can have also, is due to many pressings—therein lies the secret! PRESS—not iron your goods.

HEART and HOME PROBLEMS

MRS. ELI ZABETZ THOMPSON

Dear Mrs. Thompson: I am a girl of eighteen going with a young man of twenty-three. He seems to love me and I am deeply in love with him. He wants me to marry him, but as he is a Greek and I an American, I don't know what to do.

BLUE EYES.

What do your parents say, my dear? Is he a substantial, respectable young man who can support a wife as well as love her? If he is and if you love him a great deal do not see why you should not marry him. However, you are quite young enough to wait for somebody else, if you are not quite sure that this is Mr. Right.

Dear Mrs. Thompson: (1) What kind of goods would be best to make a party dress of?

(2) What shade is best for evening?

(3) Do you think it looks silly for a small girl to go out with a boy friend?

(4) Do you think a boy sixteen too young to go with the girls?

MAY.

(1) A delicate shade of silk, charmeuse, crepe de chine or any of the lighter, prettier fabrics would make a very pretty party dress.

(2) A light blue or a pale, delicate pink.

(3) There is no harm in your being seen with a boy friend at any time as long as your relations are merely friendly and for the companionship of it.

(4) No; a boy of sixteen is not too young to have girl friends if he knows enough not to be silly and foolish.

Dear Mrs. Thompson: I am a girl twenty years old. I am deeply in

We buy for two large stores one in Janesville and one in Beloit. In our combined stores we handle more Dry Goods than any concern in Southern Wisconsin. We have been in this buying and selling game for Thirty-five years. We know where and how to buy to the best advantage. We buy most of our goods direct from the manufacturer in case lots. We handle our business, both ways, buying and selling on a cash basis. We solicit your patronage on the score of the best goods at lowest prices. This is the store for the people to buy good merchandise right.
